

# Origami "Pleated Crane Pop-up"

Design and diagrams by Devon Hernandez

1.

(Begin with a sheet of 8 1/2 by 11 inch printer paper.)  
Valley fold in half and unfold.

2.

Valley fold the corners to the center line and unfold.  
**Turn the model over.**

3.

Form a pleat by bringing the existing mountain creases to the center crease.

4.

Valley fold the top down and unfold halfway (so that the flap is standing straight up.)  
**Rotate the model 180°.**

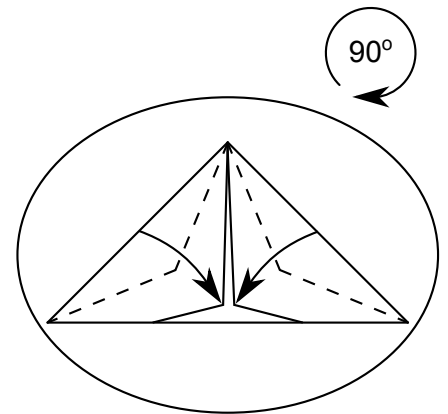

5.

(Enlarged view. Only the back of the triangular flap is shown.)  
Form a rabbit-ear fold with only the front two layers (the thicker flap in the middle) as shown.

6.

Bisect the raw edges by bringing them to the center. **Rotate the model 90° clockwise.**

7.

Swivel fold on both sides by lining up the mountain folds with the wings.

8.

Reverse fold the head down.

9.

Pleat the section into eighths.

10.

Fold the entire model in half.

11.

Spread the pleats while pinching two pleats together at the location shown. **View the model from the back.**

12.

Fold two layers down.

13.

Fold the corner down to it's neighboring crease on the right.

14.

Fold the corner down. **View the model from the front.**

15.

Completed "Crane Pop-up."
